THE JOURNAL OF THE SOCIETY OF AUTOMOTIVE ENGINEERS

INDEX TO VOLUME IV, JANUARY—JUNE, 1919

	PAGES
January	1- 64
February	65-136
March	137-212
April	213-324
May	325-434
June	435-549

A

Accidents, causes of aeronautic 200
Adapting the fuel to the engine (E W Dean and J P Smootz) 495

Addresses

Baker, Col C B 257
Bartholomew, J B 288
Beecroft, David 289
Bishop, Col W A 463
Hedges, Job E 140
Houston, George H 143
Johnston, Edward A 287
Kettering, C F 258
Manly, Charles M 142
Merrick, H H 256
Mount, Finley P 286
Peake, E E 256
Pogue, Joseph E 288
Reeves, Alfred 142
Willys, John N 142
Administrative committees, S A E, personnel 215
Aerial warfare (G Douglas Wardrop) 203

Aeronautic Division, S A E

Personnel 532
Subjects assigned 4, 426
Aeronautic Meeting at New York 207

Aeronautics

Accident causes 200
Aerial Transport Committee report, British 314
Aerial warfare (G Douglas Wardrop) 203
American aviation forces in France 169
Case for the airship (Ladislas d'Orcy) 303
Commercial flying 200
Curbing usefulness of the Zeppelin 233
Experimental engineering (Alexander Klemin) 189
Fields of airship and airplane 306
Landing problem 40
Long-distance flight 304, 305
Making the airplane a utility (Grover C Loening) 489
No retrogression to pre-war status 489
Opportunity of aviation (W B Stout) 39
Possibilities of transatlantic flight 204
Resistance due to nose radiator 307
Sidelights on air combats 12
(*See also* Aircraft, Airplanes, Airships and Seaplanes)

Agricultural Implements

Development of 270
Draft of 271
Hitching to tractors 271
Next step in design (E A White) 409
Tractor drawbar hitches for (F N G Kranich) 270

Air

Bubbles in aircraft cooling water 457
Mean temperature difference between aircraft cooling water and 458
Velocity in slip-stream 458
Air cleaners, carbureter (W G Clark) 18
Air combats, sidelights on 12
Air compressors and receivers for Diesel engines 29

Aircraft

Accidents in travel 530
Airplane and seaplane engineering (Com H C Richardson) 273
Airships and airplanes compared 315
Beginning of airship construction 340
Bolt practice of Naval Aircraft Factory 163
Carbureting conditions characteristic of engines for 9
Case for the airship (Ladislas d'Orcy) 303
Commercial models 201
Convoy escort 370
Development in United States 307
Engine development, effect of on automobile practice (H M Crane) 240
Excessive cost of production 40
Fields of airplanes and airships 306
Full scale performance testing 192
Future development 371
Future of industry 316
Gaging threaded parts for 411
Improvement in engines 492
Laminated members 163
Launching from ships 233
Location of radiator 455
Naval airships (Com J C Hunsaker) 340
Naval program adopted 368
Navy-Curtiss flying boats 439
Operations of naval aircraft (Com J H Towers) 368
Patrols maintained by Germany 343
Patrols maintained by United States Navy 368
Performance predicted by wind tunnel tests 191
Pressure cooling system 458
Problems of the naval factory during the war (Com F G Coburn) 159
Production Board's work 383
Radiators 445
Reliability of travel 530
Sand tests of control surfaces 190
Saving time in construction 167
Special fittings 162
Special tools and fixtures 166
Strength of structure 189
Use of multiple engines 530
Women in production of 161
Aircraft radiators (Archibald Black) 445
Aircraft war activities of Forest Products Laboratories (C H Teesdale) 412
Air flow through poppet valves 126
Airplane and seaplane engineering (Com H C Richardson) 273

Airplanes

Air ships and planes compared 315
Automobile not a competitor 490
Automotive engineer's part in developing 203
Beginning of present day machines 290
Commercial future of, from an engineer's standpoint (C H Day) 290
Commercial sizes and types 291
Comparison of airplane and automobile engines (Howard C Marmon) 237
Control and body differences from automobiles 243
Cost of construction and operation 291
Determining performance of 278
Effect of experience with war planes on automobiles (O E Hunt) 243
Engines, fixed radial cylinder for (John W Smith) 24
English types used in Flanders 463
Field of 306
Freight and mail service 315
Improvement in engines not suitable for cars 244
Industrial problems 524
Location of power plant and crew 275
Making a utility 489
Passenger traffic, prospective 314
Peace time need for 246
Performance, factors affecting 274
Power required 274
Practicability of high speeds in 490
Propeller efficiency 276
Properties of fabrics (E Dean Walen) 526
Safety in landing 291
Service conditions compared with automobile 243
Specifications for fabric 526
Types developed abroad 273
Wings, effect of size on performance 274
Wings, form and proportion of 276
Wings, method of covering 526
Women in production of 132
Zeppelins in commerce 524

Airships

Case for (Ladislas d'Orcy) 303
Compared with airplanes 315
Field of 306
Progress since 1914 303
Air washers 20

Alcohol

Development of, as fuel 110
Internal-combustion engine fuel 60
Sawdust a source of 118
Substitute engine fuel 250, 265
Substitute for gasoline 108
Alden, Lieut-Col H W, on Tanks 404

Alloys

Corrosion of aluminum pistons 329
Relative corrosion of (R B Fehr) 42
Aluminum, corrosion of alloy pistons 329

Amendments 31

By-Laws 180, 438
Rules 180
American morale 27
American Petroleum Institute 517
American Society for Testing Materials petroleum distillation method 93
American soldiers 49
Annual Meeting 65, 137
Artificial gas a substitute fuel 108
Association, Cuban Engineering, formed 326

Automobiles

Airplane engine improvements not applicable 244
Airplane engine in 239
Airplane not a competitor 490
American in Orient 27
Control and body differences from airplanes 243
Effect of aircraft engine development on 240
Engineering Division, Motor Transport Corps 5, 77, 194
Factories of allied nations 521
Locking devices 97
Post-war car designs 523
Probable effect of war airplane experience 243
Repair engineering (D W Onan) 500
Service conditions compared with airplane 243
Thefts at Detroit 97
Veneer and plywood parts (*See also* Motor Trucks) 413
Automotive applications of marine engines in the war (G F Crouch) 349
Automotive industry in United States 104
Automotive ordnance apparatus (Lieut-Col W G Wall) 181

Axles

Built-up type not suited for trucks 476
Solid forged type for trucks 476

B

BACHMAN, B B, ON PNEUMATIC TIRES FOR TRUCKS 298
BAKER, CHARLES W, ON PROPOSED ORGANIZATION OF FEDERAL PUBLIC WORKS 528
BAKER, WALTER C, ON CORRECT LOCATION OF BRAKE LEVERS 508

Ball and Roller Bearings Division, S A E

Personnel 214
Report 150
Subjects assigned 4, 426
Balloons, use in air fighting 465

Base Bands

Industrial truck wheels 157
Solid tires 156
Battle vividly described 269

Bearings

Annular ball, extra small series 150
Annular ball, separable (open) type 150
Angular contact ball 150
Cooling fan types 338
Crankshaft sizes and loads 220
Modified Class B truck engine 417
BEECROFT, DAVID, ON CONDITIONS IN THE AUTOMOTIVE INDUSTRY ABROAD 521
Belleau Wood 408
Belts for cooling fans 335

Benzol

Development of, as fuel 110
For engine fuel 379
Substitute engine fuel 250, 265
Substitute for gasoline 108

Bicycles

Road testing 197, 198
Standardized by Motor Transport Corps 195
BISHOP, COL W A, ON FIGHTING IN THE AIR 463
BLACK, ARCHIBALD, ON AIRCRAFT RADIATORS 445

Bodies

Class A and AA truck 77
Class B truck 77
Differences between airplane and automobile 243
Bolt practice of Naval Aircraft Factory 163

Books Reviewed

Course in Modern Production Methods (John Calder and associates) 540
Engineering Drawing (T E French) 64
Gasoline Automobile, the (P M Heldt) 434
Brackets, frame 155
Brake thermal efficiency 229

Brakes

Correct location of levers 508
Effect of load and road conditions 509
Front wheel 476
Influence of, on spring loads 218
British Civil Aerial Transport Committee report 314
BURKHARDT, OTTO M, ON PROGRESSIVE AND RETROGRESSIVE DESIGNING 216
By-Laws, amendments to 438

C

Caisson, Mark VII tractor 184
Camp Holabird motor truck repair shops 86

Camshafts

Housing in Liberty engine 394
Liberty engine 394
Modified Class B truck engine 417
Carbureter air cleaners (W G Clark) 18

Carbureters

Aircraft engine 9
Direct self-feeding type (E A Huene) 512
Liberty engine 396
Liberty fuel tests 13
Motor Transport Corps design 78
Non-adjustable 231
Submarine chaser engine 356
Tests by Motor Transport Corps 196
Carbureting conditions characteristic of aircraft engines 9

Carburetion

Aircraft engine conditions 9
Liberty engine 396

Cars

A 900-lb. five-passenger 519
Failure statistics of racing 466
Foreign post-war designs 523
Motor, in Spain 461
Reconnaissance, machine gun and staff observation 182
Spring widths and lengths, eye and clip diameters 155
Case for the airship (Ladislas d'Orcy) 303
Caterpillar track adapters for trucks 187
Chain, nomenclature for roller 150

Chain Division, S A E

Report 150
Subjects assigned 4, 426
Champagne 374
Chemical standardization of steel analysis 518
CLARK, W G, ON CARBURETER AIR CLEANERS 18
Cleats, use in tractors 293
Clerk, Dugald, engine heat drop data and curves 88
Coal, fuel oil as a substitute for 109
COBURN, COM F G, ON PROBLEMS OF THE NAVAL AIRCRAFT FACTORY DURING THE WAR 159
Commercial flying 200
Commercial future of airplanes from an engineer's standpoint (C H Day) 290
Commission, United States National Screw Thread 94, 96, 358

Committees

Automobile Locking Devices, S A E 97, 403
British Civil Aerial Transport report 314
Meetings, S A E, report on Annual Meeting 2
Membership, S A E report 138
Membership, letter of chairman 49
Membership, S A E, report, December 3
National Benzol Association, specifications for benzol 379
Pacific coast membership 180
Personnel of Administrative 215
Sections, S A E, report 4
Standards, S A E, meeting, New York City 150
Standards, S A E, report to annual meeting 137
Standards, S A E, revised rules 425
Standards, S A E, subjects assigned, 4, 139, 426
Comparison of airplane and automobile engines (Howard C Marmon) 237
Conditions in the automotive industry abroad (David Beecroft) 521

Connecting Rods

Liberty engine 389
Modified Class B truck engine 416
Constitution Committee, S A E, personnel 215
Construction of Navy-Curtiss flying boats 439
Contracts, as handled in United States Naval Aircraft Factory 168

Controls

Differences between airplane and automobile 243
Sand tests of surfaces 190
Convention, engineering at Paris 38

Cooling

Aircraft engines 26
Bubbles in aircraft, water 457
Cylinder walls 231
Fans for radiators 335
Diesel engine 31
Machine gun 202
Pressure system for aircraft 458
Reduction of losses 231
Cooling losses in internal-combustion engines as affecting design (C A Norman) 88

INDEX TO VOLUME IV

Cooling Systems

Liberty engine 395
Modified Class B truck engine 417
Correct location of brake levers (Walter C Baker) 508

Corrosion

Alloys, relative 42
Aluminum alloy pistons 329

Costs

Airplane construction and operation 291
Cost records in United States Naval Aircraft Factory 168
Excessive cost of production in war aircraft 40
Motor truck haulage in Ohio 494
Petroleum products, relative 496
War cost finding 239

Council Meetings

December, 1918 3
January, 1919 138
February 139
March 214
April 367
May 472

CRANE, HENRY M, ON EFFECT OF AIRCRAFT ENGINE DEVELOPMENT ON AUTOMOBILE PRACTICE 240

Crankcases

Airplane engine 238
Liberty engine 392
Modified Class B truck engine 416

Crankshafts

Airplane engine 238
Liberty engine 389
Modified Class B truck engine 416
Size of bearings 220
Stiffness in tractor engine 346

CRITCHFIELD, F H, ON GOVERNORS FOR MOTOR TRUCKS 402

CROUCH, GEORGE F, ON AUTOMOTIVE APPLICATIONS OF MARINE ENGINES IN THE WAR 349

Cuban Engineering Association formed 326
Cyanamid process of fixing nitrogen 16
Cyclecar development, British 317

Cylinders

Angle in Liberty engine 398
Knocks 266
Liberty engine 392
Reduced weight in 238
Cyclohexane, tests of 267

D

DAKE, CHARLES W, ON POSSIBILITIES OF STEAM AND GAS TURBINES FOR VEHICULAR PROPULSION 486

DASEY, P J, ON LUBRICATION AND FUEL TESTS OF BUDA TRACTOR TYPE ENGINE 50

Data Sheet Division S A E, discontinued 367

DAVIDSON, J B, ON GAS TRACTOR TESTING 419

DAY, C H, ON THE COMMERCIAL FUTURE OF AIRPLANES FROM AN ENGINEER'S STANDPOINT 290

DEAN, E W, ON ADAPTING THE FUEL TO THE ENGINE 495

DEAN, E W, ON STATUS OF REFINERY PRACTICE WITH REGARD TO GASOLINE PRODUCTION 372

DE GOLYER, R, ON MEXICO AS A SOURCE OF PETROLEUM AND ITS PRODUCTS 74

Designing, progressive and retrogressive (Otto M Burkhardt) 216
Detroit automobile thefts 97

DICKINSON, H C, ON FUEL ECONOMY OF AUTOMOTIVE ENGINES 227

Diesel engine (Herbert Haas) 28
Difficulties in road classification 516
Direct self-feeding carbureter (Edward A Huene) 512

Dinners

Annual meeting, New York 2
Home-coming supper at Chicago 205
Motor truck meeting dinner at New York 207
Victory dinner at annual meeting 138, 140

Distillation of Petroleum

American Society for Testing Materials method 93
Engler-Ubbelohde method 93

D'ORCY, LADISLAS, ON THE CASE FOR THE AIRSHIP 303

DOUGLAS, THEODORE, ON THE SIMPLEX TRACTOR VALVE 414

Drawbar horsepower rating 419
Drilling for oil 100
Dust, effect of on tractor engines 22

Dynamometers

Hyatt 420
Iowa 420

E

Education for manhood 442
Education, tractor 98
Effect of altitude on radiator performance 456
Effect of temperature on resistance of spark-plug insulation (J D Morgan) 462
Electric ship propulsion 366
Electric starters for modified Class B truck engine 418
Electric Vehicle Division, S A E, subjects assigned 4

Electrical Equipment Division, S A E

Personnel 214
Report 151
Subjects assigned 4, 139, 426

Electrodes, cements for spark-plug 322
Employment service of S A E 326

Engine Division, S A E

Personnel 214
Report 151
Subjects assigned 427

Engine performance (H L Horning) 344
Engineering Division, Motor Transport Corps 5, 77, 194

Engineering

Experimental aeronautic (Alexander Klemin) 189
Mission to France, American 38
Repair (D W Onan) 500

Engines

Adaptability of, to fuel 247
Adapting fuel to (E W Dean and J P Smootz) 495
Aircraft, carbureting conditions 9
Airplane and car service conditions compared 243
Airplane fixed radial cylinder (John W Smith) 24
Airplane, in automobile 239
Alcohol as fuel for internal-combustion 60
Applications of high-speed 333
Benz 132
Brake thermal efficiency 229
Carbureting conditions of aircraft 9
Comparison of airplane and automobile (Howard C Marmon) 237
Cooling losses in internal-combustion engines as affecting design (C A Norman) 88
Cooling of aircraft 26
Cooling of cylinder walls 231
Demand for fuel 247
Diesel 113, 114, 116
Diesel (Herbert Haas) 23
Diesel, applied to train haulage 367
Diesel, builders 481
Diesel, new solid injection 478
Diesel, present position of, as applied to marine service 477
Effect of aircraft development on automobile practice (H M Crane) 240
Effect of dust on tractor 22
Effect of temperature on resistance of of spark-plug insulation 462
Efficiency of Diesel 31
Engine performance (H L Horning) 344
Fixed radial cylinder (John W Smith) 24
Foreign airplane, factories 521
Friction losses 232
Fuel consumption of tractor 293
Fuel economy of automotive (H C Dickinson) 227
Gasoline, in mines 111
Geophone used to find trouble 360
Gernandt 112, 116
Governors for tractor (G L Moyers) 364
Heat losses in exhaust 231
High-compression oil 112
High-speed, characteristics of 32
High-speed, high-efficiency (D McC White) 327
Hispano-Suiza in naval airships 340
Hot surface, oil, for industrial purposes 482
Hvid 115, 116, 348
Improvements in aircraft 492
Improvements in airplane, not suitable for cars 244
Internal combustion versus turbine 486
Interpretation of fuel situation (Joseph E Pogue) 345
Liberty aircraft 383
Liberty, cyclohexane tests in 268
Liberty 204
Life of, in trucks 122
Lubrication and fuel tests on Buda tractor type (P J Dasey) 50
Materials in Hispano-Suiza 241
McClintock 116
Marine, automotive applications of 349
Mercedes 132
Modified design for Class B truck (A F Milbrath) 416
Mounting of aircraft 25
Oil, high-compression (W G Gernandt) 112
Otto 112, 114
Performance with different fuels 344
Performance of Liberty aircraft in air 399
Rating of internal-combustion power 313
Reduced weight in cylinder construction 238
Rolls-Royce aeronautic 272
Securing better efficiency 268
Size of, for motor trucks 179
Standard type on submarine chasers 354

Sterling type on Italian submarine chasers 357
Substitute fuels 250, 265
Supply of fuel for 247
Support arms for truck 151
Van Blerck type on submarine chasers 357
Vibrations of four-cylinder 496
V-type 240
V-type in automobile 242
War development of, for airplanes 39
Water-cooled 240
Engler-Ubbelohde petroleum distillation methods 93
Equipment, disposal of surplus by Motor Transport Corps 235
Exhaust losses 231
Experimental aeronautical engineering (Alexander Klemin) 189
Eyes, spring 155

F

Fans

Location of radiator cooling 336
Radiator cooling 335
Farming, importance of machinery in 270
FEHR, R B, ON RELATIVE CORROSION OF ALLOYS 42

Felloe Bands

Dimensions of wood for pneumatic tire rims 158
Edges 158
Tolerances 158
Finance Committee, S A E, personnel 215
Fittings, special aircraft 162
Fixation of nitrogen 16
Fixed radial cylinder engines (John W Smith) 24
Floats, seaplane, design of 278
Flying boats, construction of Navy-Curtiss 439
Foreign Cooperation Division, S A E, discontinued 367
Forest Products Laboratory war activities 412
Freight car and motor truck 60
Freight car standardization 60

Friction

Losses in engines 232
Tractor wheels 119
Front wheel brakes 476
Fuel economy of automotive engines (H C Dickinson) 227

Fuel and Lubricant Division, S A E

Bibliography of lubrication 4
Discontinued 367

Fuels

Adapting, to engine (E W Dean and J P Smootz) 495
Alcohol for internal-combustion engines 60
Alcohol as a gasoline substitute 108
Artificial gas as a gasoline substitute 108
Benzol and alcohol 265
Benzol as a gasoline substitute 108
Benzol for engines 379
Chemical composition 263
Combustion process of low gravity oils in engines 346
Composite 241
Consumption by automotive apparatus 229
Consumption by fixed radial cylinder engines 25
Consumption by tractors 293
Cyclohexane tests 267
Demand for engine 247
Desirable properties of petroleum 32
Development of kerosene and gasoline 228
Efficiency of tractors 121
Engine performance with different kinds 344
Foreign supply situation 37
Fuel economy of automotive engines (H C Dickinson) 227
Future automotive 227
Gasoline specification notes 93
Internal-combustion engine supply 104
Interpretation of engine fuel situation (Joseph E Pogue) 247
Liberty 85
Liberty, Bureau of Standards report 13
More efficient utilization of (Charles F Kettering) 263
Oil a substitute for coal 109
Oil big factor in halting Germany 49
Oil deposits in Mexico 249
Oil shale development 107, 110, 363
Petroleum, a resource interpretation (C G Gilbert and J E Pogue) 100
Petroleum and its products, Mexico a source of (R De Golyer) 74
Petroleum industry (Van H Manning) 35
Petroleum, unmined, in the United States 361
Properties of petroleum 32
Sawdust as a source of substitute 118
Specific gravity 264
Storage of fuel oil 30
Substitute engine 250
Substitutes for gasoline 108
Supply of engine 247
Test on Buda type traction engine (P J Dasey) 50
Tubing tests by Motor Transport Corps 197
Types derived from petroleum 495

G

Gages

Brake-rod 508
Test of thread 94
Wire 94
Gaging threaded parts for airplane work 411

Gas

Artificial, a substitute fuel 108
Natural, industry 102
Natural, testing gasoline content of 444
Turbines for vehicle propulsion 486
Gas tractor testing (J B Davidson) 419

Gasoline

Care in handling 111
Development of, as fuel 228
Export gasoline tests 15
Engines in mines 111
Production of 243
Specification notes 93
Status of refinery practice for (E W Dean) 372
Tubing tests by Motor Transport Corps 197
Viscosity of 536
Gearbox and steam throttle 172
Gear shifts, automatic 500
Gears for tractor construction 488

Gears

Changes on wheeled farm tractor 121
For tractors 488
Governor, for Class B truck 84
Modified Class B truck engine 416, 417
Steering, for trucks 476
Valve, in high-speed engines 328
General observations on the petroleum industry (Van H Manning) 35
Generators for modified Class B truck engine 418
Geophone, use of, in engine trouble 360
GERNANDT, W G, ON THE HIGH-COMPRESSION OIL ENGINE 112
GILBERT, CHESTER G, ON PETROLEUM, A RESOURCE INTERPRETATION 100
GLOETZNER, A A, ON MILITARY TRUCK OPERATION IN FRANCE 501
Glues, waterproof in automobiles 418
GOLDINGHAM, A H, ON HOT SURFACE OIL ENGINES FOR INDUSTRIAL PURPOSES 482

Governors

Centrifugal type 365, 423
Electric type 422
Flyball type for trucks 403, 423
For motor trucks (F H Critchfield) 402
For truck and tractor engines (R B Shoop) 422
Gear for Class B truck 84
Hydraulic type 423
Inertia type 423
Intake type 423
Ring type 423
Shutter type valve 414
Tractor engine type 364
Vacuum type 365
Variable speed (W W Wells) 375
Governors for motor trucks (F H Critchfield) 402
Governors for truck and tractor engines (R B Shoop) 422

H

HAAS, HERBERT, ON THE DIESEL ENGINE 28
Haber process of fixing nitrogen 16

Headlamps

Action on glare 28
Proposed law to regulate 261
Hedges, Job E, address 140
Helium, production of 260, 343
Heat treatment of steel 79
HEWITT, EDWARD R, ON PRINCIPLES OF THE WHEELED FARM TRACTOR 119
Discussion 293
High-compression oil engine (W G Gernandt) 112
High-speed high-efficiency engines (D McC White) 327

Highways and Roads

Ban on construction lifted 48
Building in 1919 407
Federal aid projects approved 527
Foreign, and their maintenance 302
Good roads 429
Illinois adopts standard rigid pavement 493
Modern traffic demands 343
Need for good roads 410
Power required on various kinds 46
Proposed expenditure for 260
Road classification difficult 516

Transport efficiency 23
Unified development urged 46
Hog Island shipyard, labor at 17
Home-coming supper, addresses at 256
HORNING, H L, ON ENGINE PERFORMANCE 344
Hot surface oil engines for industrial purposes (A H Goldingham) 482
House Committee, S. A. E., personnel 215
Houston, George H, address 143
HOYT, GEORGE W, ON RADIATOR COOLING FANS 335
HUENE, EDWARD A, ON THE DIRECT SELF-FEEDING CARBURETER 512
Hull construction in seaplanes 281
HUNSAKER, COM J C, ON NAVAL AIRSHIPS 340
HUNT, O E, ON EFFECT ON AUTOMOBILES OF EXPERIENCE WITH WAR AIRPLANES 243
Hydroplane 439
Hydroelectric development at Muscle Shoals 16

I

Ignition

Aircraft and automobile compared 242
Cylinder knocks 266
Heavy-fuel knock 345
Liberty engine 396
Time factor on high-efficiency engines 331
Illinois adopts standard rigid pavement 493
Illumination, headlamp glare 38
Instruments, tractor testing 420
Insulation, effect of temperature on resistance of spark-plug 462
Interpretation of engine fuel situation (Joseph E Pogue) 247
Inventions section, U S Army 193, 194, 202

Iron and Steel Division, S A E

Personnel 215
Specification numbers changed 427
Subjects assigned 4, 139, 427
Italian submarine chasers 357
Italian utilization of volcanic steam 45

J

Japan, regulations for using automobile in 173

K

Keeping 40,000 army motor trucks in operation (G E Randles) 497
KENNEDY, D R, ON LABOR AT HOG ISLAND 17

Kerosene

As engine fuel 496
Development of, as fuel 223
KETTERING, CHARLES F, ON MORE EFFICIENT UTILIZATION OF FUEL 263
KLEMIN, ALEXANDER, ON EXPERIMENTAL AERONAUTICAL ENGINEERING 189
KRANICH, F N G, ON TRACTOR DRAWBAR IMPLEMENTS AND THEIR HITCHES 270

L

Labor

Employment at Hog Island 17
Military blind 34
U S Shipping Board's Adjustment Board 17
LANDAU, DAVID, ON A THEORY OF PLATE SPRINGS 67, 467
Leaf ends, effect of tapered 467
Leaf points 154

Leaf Springs

Effect of tapered ends 467
General theory of 468
Nip stresses 470
Probable life of leaves 472
Levers, brake, correct location of 508
Liberty aircraft engine (J G Vincent) 383
Liberty engine, development of 204
Liberty fuel 85
Liberty fuel, Bureau of Standards report on 13

Lighting Division, S A E

Personnel 215
Subjects assigned 427
Lighting, Motor Transport Corps work on truck 197
Lighting system, Class B truck 84
LISLE, THOMAS O, ON PRESENT POSITION OF THE DIESEL ENGINE AS APPLIED TO MARINE SERVICE 477
Locking devices, automobile 97, 403

Locomotives

Diesel engine 33
Standardization of 60
LOENING, GROVER C, ON MAKING THE AIRPLANE A UTILITY 489
Lubricating oil research program 380

Lubrication

Bibliography to be compiled 4
Curtailment of oil supply 105
Liberty engine 394
Lubrication and fuel tests on Buda tractor type engine (P J Dasey) 50
Modified Class B truck engine 417
Necessity of forced lubrication for high-speed high-efficiency engines 330
Oils for Diesel engine 33
Tests for Buda type tractor engine (P J Dasey) 50

M

Machine gun cooling 202

Magnetos

Leather coupling inadequate 500
Motor Transport Corps design 78
Making the airplane a utility (Grover C. Loening) 489
Manly, Charles M, address 142
MANNING, VAN H, ON THE PETROLEUM INDUSTRY 35
Marine Division, S A E, subjects assigned 4
Marines at Château Thierry (Capt Mark Smith) 473
MARMON, HOWARD C, ON COMPARISON OF AIRPLANE AND AUTOMOBILE ENGINES 237
Marne, battle of 125
MCMURTRIE, D C, ON TRAINING CRIPPLED SOLDIERS 73

Meetings

Aeronautic at New York 207, 213
Annual February program 1, 65
Annual reviewed 137
Chicago 205
Motor Truck at New York 207
Ottawa Beach ideal for 1919 summer 435
S A E Council December, 1918, 3; January, 1919, 138; February, 139; March, 214; April, 367; May, 472
Tractor at Kansas City 207
Meetings committee, S A E, personnel 215

Membership

Chairman of committee, letter 49
Pacific coast committee 180
Report, at annual meeting 137
Report at December Council meeting 3
Membership Committee, S A E, personnel 215

Metals

Aluminum alloy corrosion 329
Mechanics of steel fracture 496
Relative corrosion of alloys (R B Fehr) 42
Steel analysis, chemical standardization of 518
Zirconium and other steels 520
Metric system, discussion of F A Halsey A S M E paper on 123
Mexico, bearing of, on fuel situation 249
Mexico as a source of petroleum and its products (R De Golyer) 74
MILBRATH A F, ON A MODIFIED DESIGN OF CLASS B TRUCK ENGINE 416
Military blind labor 34
Military truck operation in France (A A Gloetzner) 501
Mines, gasoline engines in 111

Miscellaneous Division, S A E

Personnel 215
Report 152
Subjects assigned 4, 139, 427
Modified design of Class B truck engine (A F Milbrath) 416
More efficient utilization of fuel (Charles F Kettering) 263
Motorcycle Division, S A E, subjects assigned 4, 427

Motorcycles

Pneumatic tires for 158
Road testing 197, 198
Standardization by Motor Transport Corps 195
Use in Europe 524
Motor cars in Spain 461
Motor mechanics for crippled soldiers (Douglas McMurtrie) 73

Motorships

American wooden 477
Foreign 478
Performance of early 480
Shipping Board orders 479
Motor transport corps and automotive industries (Lieut-Col Edward Orton, Jr) 234

Motor Transport Corps

Division of maintenance 498
Engineering Division 5, 77, 194
Future plans 234

Standardized repair shops 497
Motor truck chassis design (Cornelius T Myers) 174
Motor truck haulage costs in Ohio 494
Motor truck meeting at New York 207

Motor Vehicles

American automobiles in the Orient 27
Army standardization board appointed 197
Automotive ordnance apparatus (Lieut-Col W G Wall) 181
Axles, wheels and suspension 476
British cyclecar development 317
Cars for reconnaissance, machine guns and staff observation 182
Cars in Spain 461
Comparison of airplane and automobile engines (H C Marmon) 237
Convoy system of delivery 198
Correct location of brake levers for 508
Effect of war airplane experience on automobiles (O E Hunt) 243
Engineering Division, Motor Transport Corps 5, 77, 194
Frame breakages 476
Freight cars and motor trucks 60
Governors for trucks 402
Headlamp law, proposed 261
High-speed engines for 334
Highway transport efficiency 23
Keeping army trucks in operation 497
Maintenance by Motor Transport Corps 199
Military truck operation in France 501
Modified design of engine for Class B trucks (A F Milbrath) 416
Motorcycles and bicycles 195
Motorcycles in Europe 524
Motor Transport Corps (Lieut-Col Edward Orton, Jr) 234
Performance in army 194
Racing car failures 466
Repair engineering (D W Onan) 500
Road testing 195, 196, 197, 198
Rules for using in Chosen 173
Spring widths and lengths, eye and clip diameters 155
Steam and gas turbines for vehicle propulsion 486
Steering gear 476
Truck haulage costs in Ohio 494
Unskilled drivers 475
War service lessons in truck design 475
What motor cars could be (*See also* Automobiles) 519

MOYERS, G L, ON TRACTOR ENGINE GOVERNORS 364
Muscle Shoals hydroelectric development 16
MYERS, CORNELIUS T, ON MOTOR TRUCK CHASSIS DESIGN 174

N

National Benzol Association Committee specifications for benzol 379
National Research Council fellowships 507
National Screw Thread Commission 94, 96

Next step in agricultural implement design (E A White) 409
NIES J D, ON POSSIBILITIES OF STEAM POWER 170
Nip stresses in springs 470
Nitrogen, fixation of 16

Nomenclature

Leaf point 154
Roller chain 150

Non-Ferrous Metals Division, S A E

Personal 533
Subjects assigned 427
NORMAN, C A, ON COOLING LOSSES IN INTERNAL-COMBUSTION ENGINES AS AFFECTING DESIGN 88
Nuts, machine screw 152

O

Officers, S A E, for 1919 137, 144

Oil Shales

Development of 107, 110, 363
Distillate, as a substitute fuel 250
Utilization of 36

Oils, Coal and Other Fuels

Adapting the fuel to the engine (E W Dean and J P Smootz) 495
Big factor in halting Germany 49
Consumption in fixed radial cylinder engines 24
Curtailment of lubricating supply 105
Desirable properties of petroleum fuel 32
Diesel engine lubricating oils 33
Elimination of waste in production 105
Engine, high compression (W G Gernandt) 112
Foreign sources 107
Foreign supply situation 37
Liberty fuel, Bureau of Standards report 13
Lubricating oil research program 380
Mexican deposits 249
New fields of 105
Oil shales, development of 107, 110, 363
Petroleum, a resource interpretation (C G Gilbert and J E Pogue) 100
Petroleum and its products, Mexico, a source of (R DeGolyer) 74
Petroleum industry (Van H Manning) 35
Properties of petroleum fuel 32
Quantity available 495
Refining of 101
Replaces coal 109
Reserve of petroleum 103
Storage of fuel 30
Substitutes 108, 250
Unmined petroleum in the United States 361
Well drilling 100
ONAN, DAVID W, ON REPAIR ENGINEERING 500
Operations of naval aircraft (Com J H Towers) 368
Opportunity of aviation (W B Stout) 39
Ordnance technical staff organized 481
Organization of a Federal Public Works Department proposed (C W Baker) 528
ORTON, LIEUT-COL EDWARD JR, ON THE MOTOR TRANSPORT CORPS AND THE AUTOMOTIVE INDUSTRIES 234
Ottawa Beach ideal for summer meeting 435

P

PARR, PERCY H, ON A THEORY OF PLATE SPRINGS 67, 467

Parts

Gaging threaded parts for airplane work 411
Motor Transport Corps lists 85
Spare and repair, for trucks in France 504
Tests of motor truck, by Motor Transport Corps 196
Truck parts, interchangeability of 82

Petroleum

American Institute organized 517
American Society for Testing Materials distillation method 93
Desirable properties of, for fuel 32
Drilling wells 100
Elimination of waste in production 105
Engler-Ubbelohde method of distillation 93
For raising steam 105
Foreign sources of supply 107
Foreign supply situation 37
Fuel products derived from 495
General observations on the industry (Van H Manning) 35
Oil shales, development of 107
Per capita consumption in United States 517
Properties and production method of fractions 495
Refining 101
Relative cost of products 496
Reserve supply 103
Substitutes, development of 108
Supply of crude 248
Unmined supply in the United States 361
Petroleum, a resource interpretation (C G Gilbert and J E Pogue) 100
Petroleum and its products: Mexico a source of (R De Golyer) 74

Pipe Threads

A S M E 96
Briggs 96
Pipe threads, new series 358
United States Standard 96
Pipes, bends in radiator 455

Pistons

Aluminum and steel for engines 329
Large-bore for aircraft 334
Liberty engine 389
Modified Class B truck engine 416
Pitot tubes for measuring air flow 127
Plate springs, theory of (David Landau and P H Parr) 67

Plows

Draft of 271
Hitching to tractors 271
Plywood problems solved by Forest Products Laboratories 412
Pneumatic tires on trucks (B B Bachman) 298
POGUE, JOSEPH E, ON THE ENGINE FUEL SITUATION 247
Possibilities of steam and gas turbines for vehicle propulsion (Charles W Dake) 486
Possibilities of steam power (J D Nies) 170
Possible effect of aircraft engine development on automobile practice (Henry M Crane) 240
Power factor, a basis for quick comparison of engine types 347
Power rating of internal-combustion engines 313
Present position of the Diesel engine as applied to marine service (Thomas O Lisle) 477
Principles of the wheeled farm tractor (Edward R Hewitt) 119
Discussion 293
Probable effect on automobiles of experience with war airplanes (O E Hunt) 243
Problems of the Naval Aircraft Factory during the war (Com F G Coburn) 159
Progressive and retrogressive designing (Otto M Burkhardt) 216

Propellers

Efficiency of airplane 277
Forest Products Laboratories work on 412
Liberty engine hub 392
Properties of airplane fabrics (E Dean Walen) 526
Publication Committee, S A E, personnel 215
Pulleys and belts for cooling fans 335

Pumps

Diesel engine fuel 28
In cooling systems 335

R

Radiator cooling fans (G W Hoyt) 335

Radiators

Adjustment in flight 459
Aircraft (Archibald Black) 445
Albatross 447
Bends in pipes 455
Cooling fans for 335
Honeycomb 446
Location in aircraft 455
Materials employed 458
Performance affected by altitude 456
Plate 448
Protection of 196
Resistance of nose 307
Shutters 459
Tests 449
Tests for finished 460
Theory 448
Tubular 447
Water pockets, design of 457
Weight of 458
Radius rods 216
RANDLES, G E, ON KEEPING 40,000 ARMY MOTOR TRUCKS IN OPERATION 497
REAGAN, LIEUT CHARLES A, ON SCRAP ORGANIZATION AND SALVAGING 47
Rebound clips, spacers and bolts 155
Red Cross Institute for the Blind, industrial survey 34
Reeves, Alfred, address 142
Relative corrosion of alloys (R B Fehr) 42
Reliability of aircraft travel 530
Repair engineering (David W Onan) 500

Research

In physics and chemistry 507
Lubricating oil program 380
Possible technical work on petroleum 36
RICHARDSON, COM H C, ON AIRPLANE AND SEAPLANE ENGINEERING 273

Rims

Dimensions of wood felloe bands for pneumatic tire 158
Valve hole sizes, automobile 158

Roads and Highways

Ban on construction lifted 48
Building in 1919 401
Classification difficult 516
Federal aid projects approved 527
Foreign and their maintenance 302
Good roads 429
Highway transport efficiency 23
Illinois adopts standard rigid pavement 493
Modern traffic demands 348
Need for good roads 410
Power required on various kinds 46
Proposed expenditure for 260
Unified highway development 46
Rods, radius and torque 216
Rolls-Royce aeronautic engine 272
Rules, amendments to 180
Rules for local tractor demonstrations, suggested 443
Rust proofing, new method 444

S

Sawdust as source of substitute fuel 118
Scrap organization and salvaging (Lieut Charles A Reagan) 47

Screw Threads

Classification of fits 94
Standardization of 94

Screws

A S M E standard 82
National Screw Thread Commission 94
Nuts for machine 152
Screw and pipe threads, new series 358
S A E, dimensions of 82
United States standard 84

Seaplanes

Airplane and seaplane engineering (Com H C Richardson) 273
Basin tests, results compared 280
Floats, design of 278
Future development 283
Hull construction 281
Operating against Zeppelins 233
Types of naval planes 282
V-bottom versus the flat 281
Searchlights, operated by high-speed engines 333

Sections

Activities 61, 133, 207, 320, 430, 537
Organization at Washington approved 4

Sections Committee, S A E

Personnel 215
Report 4

Shaft Fittings Division, S A E

Personnel 215
Subjects assigned 427
Shales, utilization of oil 36
Shims, non-magnetic magneto 151

Ships

Diesel engine propulsion 33
Electric propulsion for 366
Standardization of merchant shipbuilding 72
SHOOP, R B, ON GOVERNORS FOR TRUCK AND TRACTOR ENGINES 422
Sidelights on air combats 12
Simplex tractor valve (Theodore Douglas) 414
SMITH, CAPT MARK, ON THE MARINES AT CHÂTEAU THIERRY 473
SMITH, JOHN W, ON FIXED RADIAL CYLINDER ENGINES 24
SMOOTZ, J P, ON ADAPTING THE FUEL TO THE ENGINE 495

S A E

Aeronautic meeting at New York 207
Annual meeting 1
Annual meeting program 65
Annual meeting reviewed 137
By-Laws amended 180, 438
Chicago meeting 205
Cooperation with army on United States standard truck 312
Council meetings:
December, 1918 3
January, 1919 138
February 139
March 214
April 367
May 472
Council personnel 137
Employment service 326
Membership report 137
Motor truck meeting at New York 207
Officers for 1919 137, 144
Rules amended 180
Section activities 61, 133, 207, 320, 430, 537
Standardization of United States truck 310
Summer meeting, Ottawa Beach 325, 435
Tractor meeting at Kansas City 207

Semi-elliptic for trucks 476
Suspension in motor trucks 178
Tests for parallelism 154
Theory of plate springs (David Landau and P H Parr) 67, 467
Width of ends 155
Widths and lengths, eye and clip diameters for commercial vehicles 155
Widths and lengths, eye and clip diameters for passenger cars 155
Wrapped eyes 155

Springs Division, S A E

Personnel 215
Report 154
Subjects assigned 139, 427

Spruce

Drying of 412
Supply for Naval Aircraft Factory 166
Standard hole practice 94

Standardization

A S M E pipe thread standard 96
British chemical steel standards 518
Current work:
January 54
May 425
June 532
Freight car and locomotive 60
Illinois adopts rigid pavement for state roads 493
Merchant shipbuilding 72
Motor vehicles by army 87
Policy of Motor Transport Corps 234
Regulations governing work 425
Report at annual meeting 137
Screw Thread Commission meetings 94, 96
Truck and tractor, necessary for export trade 523
United States standard truck 310
Work in 1918 150

Standards Committee, S A E

Meeting at New York 150
Personnel 214, 429, 532, 533
Report at annual meeting 137
Rules revised 425
Subjects assigned 4, 139, 426
Starting motor, barrel type mounting 151

Starting System

Class B truck 84
Modified Class B truck engine 418

Stationary Engine and Lighting Plant Division, S A E

Personnel 215
Subjects assigned 4, 427
Statistics of racing car failures 466
Status of refinery practice with regard to gasoline production (E W Dean) 372

Steam

Power possibilities of (J D Nies) 170
Throttle versus gearbox 172
Turbines for vehicle propulsion 486
Versus electricity 171
Versus gasoline 171
Volcanic, utilization of 45

Steel

Alloy, for tractor gears 488
Chemical standardization of analysis 518
Heat treatment of by Motor Transport Corps 79
Mechanism of fracture in 496
Specifications of Motor Transport Corps 78
Zirconium and other 520
